Style 410 Bark Finish PVC Foam Anti-Fatigue Matting

FEATURES:

- Cushioned foam PVC construction
- Excellent anti-fatigue properties
- Good slip resistant surface pattern
- Clean & Hygienic
- Easy to clean surface
- Economically priced

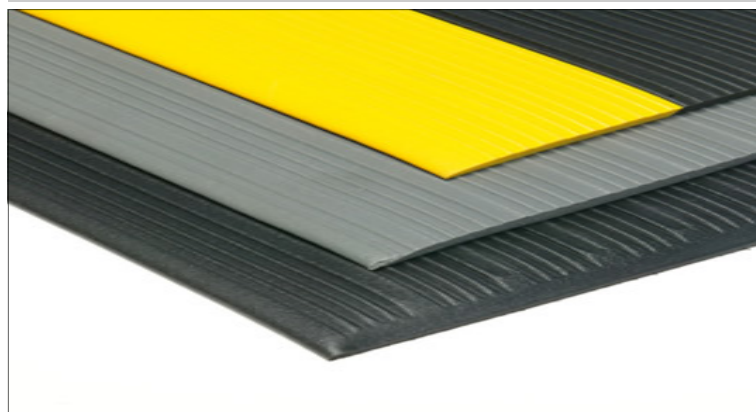

Other roll sizes to special order

Style Information and Data

A cushioned 'foamed' pvc anti-fatigue matting offering operator and workstation comfort and safety. We offer this style in three colour and two roll size formats, or cut pieces, which are manufactured to the following general specifications:-

| | |
|-------------------------|------------|
| Polymer Type: | PVC |
| Hardness: | Medium |
| Density - SG: | 250kg |
| Tensile Strength: | 5.0 Mpa |
| Elongation at break: | 300% |
| Abrasion Resistance: | NA |
| Temperature Resistance: | -30/+100°C |

Style 411 Ribbed Finish PVC Foam Anti-Fatigue Matting

FEATURES:

- Cushioned foam PVC construction
- Excellent anti-fatigue properties
- Good slip resistant surface pattern
- Clean & Hygienic
- Easy to clean surface
- Economically priced

Style 480 CobbleTrax Foamed PVC Anti-Fatigue Matting

FEATURES:

- A superior heavy duty Anti-fatigue matting
- Excellent anti-fatigue characteristics
- Oil, Grease & Chemical resistant
- Heavy density foam base
- Heavy duty 'cobbled' pattern rubber topping
- Clean, Hygienic & highly durable

Style Information and Data

A cushioned heavy density 'foamed' anti-fatigue matting with a heavy duty solid rubber topping offering operator and workstation comfort and safety. We offer this style in black only in rolls, or cut pieces, which are manufactured to the following general specifications:-

| | |
|-------------------------|------------|
| Polymer Type: | NR |
| Hardness: | Medium |
| Density - SG: | 300kg |
| Tensile Strength: | 8.0 MPa |
| Elongation at break: | 300% |
| Abrasion Resistance: | NA |
| Temperature Resistance: | -30/+100°C |

Style 488 Foam Backed PVC Anti- Fatigue Mats - Bevelled Edged

FEATURES:

- Tapered safety ramp edge
- Hard - wearing & durable PVC
- High Slip resistant directional ribbed patterned surface
- Cushioned sponge underside
- Excellent floor to foot cold insulation properties
- Available in Black only as standard

Style Information and Data

A very popular Durable, hard wearing and high effective anti-fatigue mat with slip resistant ribbed directional pattern surface and cushioned sponge underside.

CORU488 is available from stock in three popular sizes and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | PVC/PVC |
| Hardness: | 70° |
| Density - SG: | 1.4 |
| Tensile Strength: | 4.0 Mpa |
| Elongation at break: | 150% |
| Abrasion Resistance: | 200 mm ³ |
| Temperature Resistance: | -20/+70°C |

Style 825 CushStat PVC Foam Matting

FEATURES:

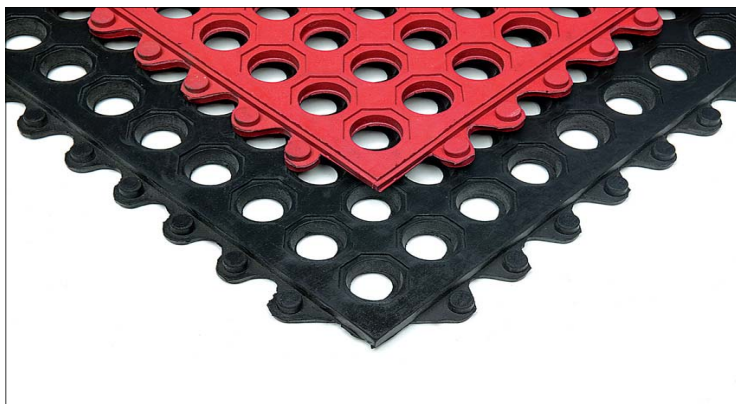

- Fully tested to EOS/ESD - OES/ESD-S4 for conductive / anti-static requirements
- Cushioned anti-fatigue foamed construction
- Protects worker and component against risk of static electricity transfer
- Ideal for office or workplace environments

Style Information and Data

| Tensile Strength: | 5.0 Mpa |
| Elongation at break: | 300% |
| Abrasion Resistance: | NA |
| Temperature Resistance: | -30/+100°C |

Style 630 Ring Type Connectable Rubber Tiles

FEATURES:

- High Quality Rubber Linkable tiles
- Available in general purpose black or oil & grease resistant red
- Easily linkable to form larger areas
- Ideal for areas demanding good drainage and under foot slip resistance where excess amounts of fluids abound - Kitchens, bars, canteens etc and liquids are in abundance

Style Information and Data

A very popular and attractive high quality moulded rubber connectable tile.

CORU630 is available from stock in various formats as listed with optional connectable bevelled edge ramp safety strips and is made to the following general specifications:-

| | |
|-------------------------|-----------|
| Polymer Type: | NR/Blend |
| Hardness: | 60° |
| Density - SG: | 1.4 |
| Tensile Strength: | 3.0 MPa |
| Elongation at break: | 250% |
| Temperature Resistance: | -20/+70°C |

This grade can be produced in varying width, length and thickness formats and in a variety of colours [RAL] matched if needed] to special order. These would be subject to minimum batch run quantities.

Style 635 Ring Type Anti-Fatigue Workstation Mats

FEATURES:

- High Quality Rubber Workstation mats
- Excellent anti-fatigue properties
- Good slip resistant surface pattern
- Good water, liquid and debris drainage
- Integrally moulded bevelled safety edge
- Economically priced

Style Information and Data

A very popular and attractive high quality moulded rubber free standing anti-fatigue mat with bevelled ramp safety edges all round. The most popular free standing anti-fatigue mat on the market.

CORU635 is available from stock in various formats as listed and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | NR/Blend |
| Hardness: | 60° |
| Density - SG: | 1.4 |
| Tensile Strength: | 3.0 Mpa |
| Elongation at break: | 250% |
| Abrasion Resistance: | 250 mm ³ |
| Temperature Resistance: | -20/+70°C |

Style 549 StandSafe Anti-Fatigue Workstation Mats

FEATURES:

- Supreme quality synthetic rubber mat
- Superior anti-fatigue characteristics
- Oil, Grease & Chemical resistant
- Extremely hardwearing and durable
- Fluted, slip & trip resistant Orange bevelled edge
- Three size formats

All items in black with orange bevelled PVC warning edge

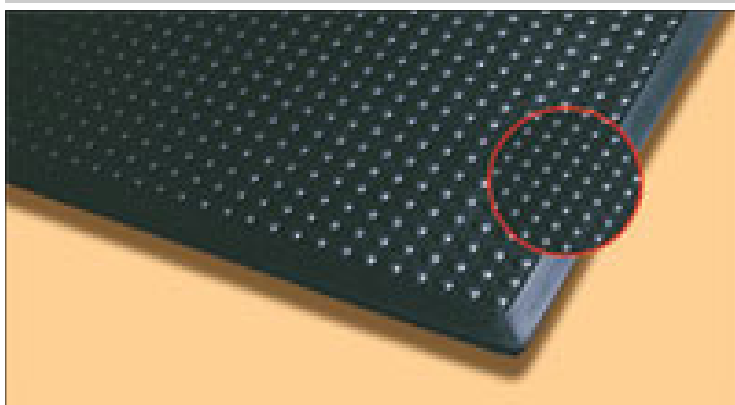

Style Information and Data

A superior quality moulded synthetic rubber heavy duty anti-fatigue mat with orange pvc bevelled safety ramp edge all round.

CORU549 is available from stock in three size formats as listed and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | SR/Blend |
| Hardness: | 60° |
| Density - SG: | 1.4 |
| Tensile Strength: | 10.0 Mpa |
| Elongation at break: | 300% |
| Abrasion Resistance: | 200 mm ³ |
| Temperature Resistance: | -30/+120°C |

Style 639 BubbleTop Anti-Fatigue Workstation Mats

FEATURES:

- Cushioned 'Bubble' construction
- Excellent anti-fatigue properties
- Good slip resistant surface pattern
- Good quality durable rubber
- Easy to clean surface
- Economically priced

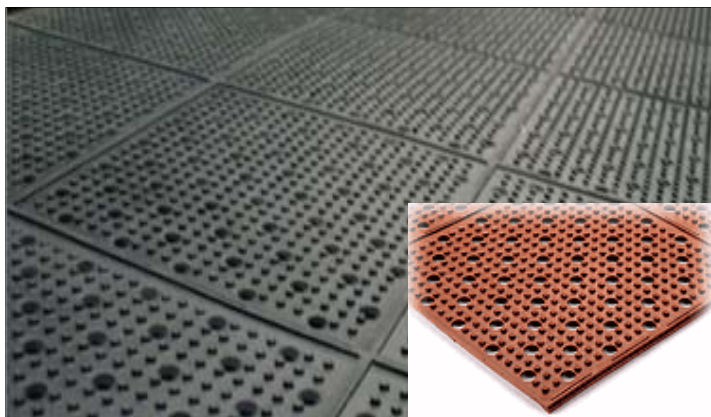

Style Information and Data

A very popular and highly effective moulded rubber free standing anti-fatigue mat with bevelled ramp safety edges all round.

CORU639 is available from stock in one size only as listed and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | NR/SBR |
| Hardness: | 65° |
| Density - SG: | 1.5 |
| Tensile Strength: | 3.0 Mpa |
| Elongation at break: | 250% |
| Abrasion Resistance: | 200 mm ³ |
| Temperature Resistance: | -20/+70°C |

Style 634 'MaxiMat' All Rubber Anti-Fatigue Matting

FEATURES:

- Heavy duty durable Rubber
- Slip resistant pattern finish
- Good drainage for wet areas
- Reversible for longer wear
- Easily cleaned
- Excellent anti-fatigue characteristics

Red or Blue oil & grease resistant grade available subject to minimum batch runs.

Style Information and Data

A high quality rubber matting with excellent anti-fatigue properties have excellent drainage characteristics for damp and wet areas.

CORU634 is available from stock in the sizes listed and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | NR/SBR |
| Hardness: | 65° |
| Density - SG: | 1.3 |
| Tensile Strength: | 6.0 Mpa |
| Elongation at break: | 300% |
| Abrasion Resistance: | 200 mm ³ |
| Temperature Resistance: | -20/+70°C |

Style 644 'TopTile' Anti-Fatigue Workstation Floor Mats / Matting

FEATURES:

- Heavy duty Vinyl topping
- Resilient sponge cushioned reverse
- Smooth easy clean surface
- Attractive 'Marbled' pattern
- Bevelled safety edges
- Excellent anti-fatigue properties

Red or Blue oil & grease resistant grade available subject to minimum batch runs.

Style Information and Data

A high quality and attractive 'marbled' finish anti-fatigue matting with permanent sponge cushioned backing with a hardwearing, Smooth easy to clean Vinyl surface.

CORU644 s available from stock in the three size formats listed and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | PVC/sponge |
| Hardness: | NA |
| Density - SG: | NA |
| Tensile Strength: | NA |
| Elongation at break: | NA |
| Abrasion Resistance: | 200 mm ³ |
| Temperature Resistance: | -20/+90°C |

Style 631 'TruGrip' All Rubber Anti-Fatigue Matting

FEATURES:

- Heavy duty durable Rubber
- Highly slip resistant pattern finish
- Unique aggressive surface pattern
- Good drainage for wet areas
- Excellent anti-fatigue characteristics
- Ideal for wet, greasy areas & workstations

Black or Blue General purpose grade available to special order.

This grade can be produced in a black or blue oil and grease resistant version to special order which is subject to minimum batch runs

Style Information and Data

A high quality rubber mat with excellent anti-fatigue properties have excellent drainage characteristics for damp and wet areas.

CORU631 is available from stock in the sizes listed and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | NR/SBR |
| Hardness: | 65° |
| Density - SG: | 1.3 |
| Tensile Strength: | 6.0 Mpa |
| Elongation at break: | 300% |
| Abrasion Resistance: | 200 mm ³ |
| Temperature Resistance: | -30/+90°C |

Style 629 Anti-Fatigue Workstation / Floor Mats

FEATURES:

- Heavy duty durable Rubber
- Slip resistant pattern finish
- Hollowed reverse for cushioning
- High impact and resilience
- Integral interlocking design
- Excellent protection from falls

Red or Blue oil & grease resistant grade available To special order

Style Information and Data

A heavy duty connectable rubber moulded connectable tile with optional black or yellow bevelled ramp safety edges

CORU556 is available from stock in one size only as listed and is made to the following general specifications:-

| | |
|-------------------------|---------------------|
| Polymer Type: | NR/SBR |
| Hardness: | 65° |
| Density - SG: | 1.3 |
| Tensile Strength: | 6.0 Mpa |
| Elongation at break: | 300% |
| Abrasion Resistance: | 200 mm ³ |
| Temperature Resistance: | -20/+70°C |
